* This number is based on surveys sent 6 months after each training session. It has been updated in November 2023 and is based on 2467 respondents who graduated in 2022 worldwide. For local outcomes data, read the rest of this job report.

Scope of the report

This report is based on surveys sent to students who graduated from our bootcamps in Montréal (Québec), Canada, in 2022. The surveys were conducted six months after each training session.

It was last updated in November 2023 and is derived from the responses of 83 participants.

Demographics

We're encouraging greater diversity to enter tech.

Women
30%

Men
70%
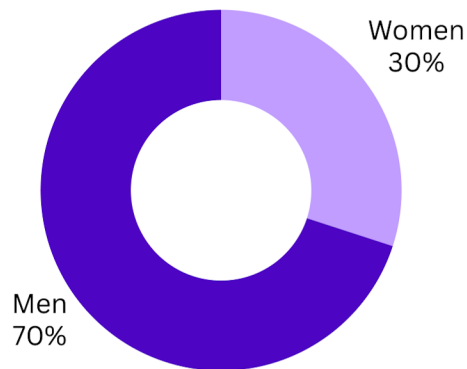

Le Wagon has inspired more women to enter the tech industry, with 32% of our graduates identifying as women. This percentage is slightly higher than the industry average, as reported by Tech Nation, where 26% of tech employees are women.

We are actively expanding our presence at women-led events, such as Women in Tech. Additionally, we conduct our own increasingly successful diversity-focused web development and data workshops.

Our diverse community includes individuals from various backgrounds, including recent college and university graduates, as well as career switchers, hailing from a wide range of countries.
